Birth date: 24 May 1996

Short Note

My name is Christos Karamolegkos and I am an aspiring Software Engineer and Web Developer, studying at the University of Western Macedonia. I was born in Athens, Greece and I have been living in the country ever since. I speak natively Greek and English as a second language. My passion is problem solving and designing solutions. I am a hard worker, very eager to learn new things and expand my capabilities every day, using always the most updated tools and information provided.
